How does your lender stack up?

Checklist:

- Do they enable you to view all projects in one portfolio view, even loans across multiple lenders?
- Do they have the ability to pay digitally as soon as a draw is approved?
- Do they provide convenient mobile access for builders and borrowers for up-to-date project tracking?
- Do they enable storage and tracking of compliance documentation?
- Do they allow for real-time visibility into funding status?
- Do they keep up with the industry standard for draw turnaround times?
- Do they provide inspectors with a free mobile app?
- Do they have a portal where you can submit all new start requests and documentation?
- Do you have insight into limitations and covenants for revolving agreements?
- Do they provide you with real time updates to collateral in a pipeline state?
